EV CHARGING SOLUTIONS FOR

APARTMENTS

EV for Apartments

Benefits for You

- Attract and retain high-value residents to your property
- Increase property value and offer the ability to charge higher rent
- Meet emerging regulations
- Attract future tenants that own EVs

With electric vehicles (EVs) on the rise, charging stations are increasingly becoming a must-have amenity. Offering EV charging solutions not only meets this demand but also enhances your property's green profile and ensures compliance with emerging regulations. Properties equipped for EVs are positioned to stand out, attracting eco-conscious drivers who value convenience and sustainability.

Did You Know?

- Multifamily residents are 2.5x more likely to own an EV if they can charge at home
- 47% of residents find a sustainable, eco-conscious lifestyle to be "very" or "extremely" important to them
- 66% of residents believe that access to EV charging would benefit residential communities
